

The attendance benchmarking report tracks aggregated term-by-term attendance history for each year group - going back to Year 1! A like-for-like year group national average is also provided for comparison. The first page of the report tracks each overall year groups' attendance rates. Page two breaks the analysis down by gender and disadvantage groups.

Start your analysis by looking at the number of students in the table on the left, then make your way through the attendance % tables and trend charts. The listed year groups represent the 2018/19 academic year.
